- H.323
- SIP Proxy/ALG
- Firewall / Security
- LAN VLAN
- Survivability (optional)
- WAN Link Redundancy
- B2BUA / HMR
- Ethernet - PPPoE
- Ethernet DHCP WAN
- Ethernet Static IP
- WAN VLAN Support
- QoS Management
- NAT / Port Forwarding
- DHCP Relay
- DHCP Server
- Test UA
- MGCP
- Dynamic DNS
- Network Test Tools (PCAP, syslog)
- Proxy ARP
- AAA
- Remote Firmware Updates
- Custom CLI Configuration
- Call Admission Control (CAC)
- MOS Scoring / Call Quality Monitoring
- IPsec VPN Tunnels

About Ribbon Communications

Ribbon is a company with two decades of leadership in real-time communications. Built on world-class technology and intellectual property, Ribbon delivers intelligent, secure, embedded real-time communications for today's world. The company transforms fixed, mobile and enterprise networks from legacy environments to secure IP and cloud-based architectures, enabling highly productive communications for consumers and businesses. With locations in 28 countries around the globe, Ribbon's innovative, market-leading portfolio empowers service providers and enterprises with rapid service creation in a fully virtualized environment. The company's Kandy Communications Platform as a Service (CPaaS) delivers a comprehensive set of advanced embedded communications capabilities that enable this transformation.
