

WINE DISPLAY UNIT Wine Cellar Display

STANDARD FEATURES

The main design consideration is the appearance to blend into the surrounding ambience of the restaurant; the display aspect is to accent the variety of wines attracting the customers.

Safety is another major consideration since the display unit is mainly glass, installed in close vicinity of the customers. Apart from the above points, the display unit has to maintain optimum temperatures and humidity to store the wine without degrading its quality and appearance. Lighting is another important consideration which increases the visibility of the shelf life of the wine.

TECHNICAL DATA	REFRIGERATED MODELS		
MODEL NUMBER	R20-W1-L/R	R40-W2	R70-W3
Dimension - L x D x H (mm.)	650 x 500 x 2000	1270 x 500 x 2000	1890 x 500 x 2000
Capacity Cu.Ft.	10	21	32
Temperature range	2 °C to 5 °C	2 °C to 5 °C	2 °C to 5 °C
Cooling capacity (Btu.)	1010	2112	2801
Compressor (Hp.)	1/4	1/2	1/2
Shelves	7 (Max 72 bottles.)	14 (Max 144 bottles.)	21 (Max 216 bottles.)
Mullion heater	36	53 x 2	53 x 2
Defrosting system	Circulated air		
Power supply	220 - 240 V / 50 Hz / 1Ph (60Hz models are available)
