## Surge Arrester

### Accessory for BOSS antennas

To be inserted in the coaxial cable, just after the antenna, in order to redirect to ground any lightning strikes that could damage the antenna.

Recommended installation inside an outdoor housing attached to the mast (ref. 4163).

#### Ref.4947

Art.Nr	USS3000
EAN13	8424450120910

## Technical specifications

Technical specificat.		
Frequency margin	Mhz	0-3000
Insertion losses	dB	0.1
Discharge voltage	V	90
Max. peak power (PEP)	W (Br)	200
Max. discharge corrent	kA	10
Nominal current	A	10
Impedance	Ohm	75
Operating temperature	°C	-40 ... 80
