

SureSeal®

Inline floor drain trap sealer

Code	Description	Qty.
97041 (SS2009V)	2" Trap Seal	6
97042 (SS3009V)	3" Trap Seal	6
97043 (SS3509V)	3½" Trap Seal	6
97044 (SS4009V	4" Trap Seal	6

FEATURES

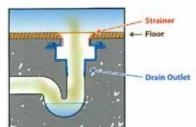

- Simple one-piece installation
- Use on all brands of drains
- Economical

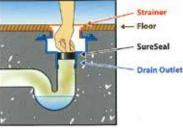

SureSeal® waterless in-line drain trap seal is the preferred choice of engineers, PHC professionals and code officials across the country.

Application • The SureSeal Inline Trap Sealer can be used with all 2," 3," and 4" floor drains and in 3 ½" & 4" floor drain strainers. I.E shower drains, outdoor drains, basement drains, water heater drains, HVAC condensation drains, maintenance areas, floor/mop sinks, residential bathrooms, under kitchen sinks, apartment and condo bathrooms and other applications. • The SureSeal Inline Trap Sealer can be easily retrofitted to older drains, as its variety of designs ensure compatibility with all other drain types.

Installation Instruction: Ideally the installation show take place during the Trim out stage. This insures the construction debris will not damage the SureSeal.

1. Insert SureSeal into strainer throat making sure the SureSeal is level and properly seated. 2. Complete trim out of floor drain. • For Retro-fit Instruction: 1. Remove grate from floor drain and thoroughly clean the strainer throat.* 2. Insert SureSeal into strainer throat making sure the SureSeal is level and properly seated. 3. Replace grate on floor drain.

Specification: SureSeal model SS2009V Waterless Inline 2" Drain Trap Seal. HDPE (High Density Poly Ethylene) housing with heavy duty proprietary silicone diaphragm and soft EPDM rubber sealing gasket. Floor rating ASSE 1072 AF GW.

Function: Installs into the outlet of drain bodies, or drain hubs to protect the trap seal from evaporation. Creates a physical barrier that blocks sewer gases and their odors from escaping. Provides waterless trap seal protection equivalent to water based trap primers.

- · New Construction: Used as a trap primer replacement or in conjunction with a trap primer to provide protection against escaping sewer gases. Eliminates the need to repair/replace trap primers when they fail.
- · Retrofit: Used in situations where trap primers have failed or where trap primers were never installed.

Benefits: Simple to install, eliminates the need for complex, time consuming, and expensive repairs. ECO friendly providing 100% water savings efficiency over traditional methods.
