

Security report

Issued by
VITO AG
Eltastrasse 6
78532 Tuttlingen (Germany)
for the products
VITO®X1, VITO®XS
International Patent pending

Declaration of conformity:

The professional fat-filtration-equipment is manufactured and tested according to the following standards:

For the purposes of the EC – Machinery Directive 89/392/EEC, as amended by Directive 98/37/EC and developed in terms of the new Directive 2006/42/EC, were designed and manufactured.

This declaration applies to all identical copies of the product.

The following harmonized standards are applied:

DIN EN 292, Safety of machinery, equipment and facilities

DIN EN 60204.1, electrical equipment for industrial machinery

The product, mentioned above, meets the following basic requirements that laid down in Council Directive on the approximation of the laws of the member states relating to electromagnetic compatibility(2004/108/EC).

The following standards are applied:

EN 55014-1:2006 electromagnetic compatibility, electromagnetic interference

EN55014-2:1997 + A1:2001 electromagnetic compatibility, immunity

EN 61003-2:2006 devices with analog inputs, limits, devices <16A

EN 61003-3:2008 voltage fluctuation devices <16A

Our products VITO® 50 and VITO® 80 are also certificated:

Parts and materials:

We confirm that at the time of the issue of this certificate – as far as we know – all materials that come in direct contact with the frying oil are food safe.

The pumpunit, filterbox and dripping pan are dishwasher compliant.

This certificate applies to the filtration devices VITO® 30, VITO® 50 and VITO® 80.

All suppliers are ISO 9001 certified.

Sanitation:

In the purification of VITO® only basic measures are needed. Therefore, it is completely sufficient if the device is flushed with each filter change by hand. Since frying oils have high operating temperatures, it is practically excluded that germs or bacteria can survive.

Objective assessment of the risk for operators of equipment and VITO® 30 / VITO® 50 and hygiene in kitchens:

During operation of Vito can at prescribed application, as described in the manual, no dangerous accidents occur.
