Access to Medical Reports Act 1988

To process your application we may need to obtain a medical report from any doctor who has attended you. You can withhold your consent for us to obtain the report, but without it cover may be restricted. You are responsible for any fees incurred by us in obtaining such reports.

If you consent, you can see the medical report before it is sent to us. We will inform you when we write to the doctor, and you need to obtain your copy within the next 21 days. If after 21 days the doctor has not heard from you, he can send his report directly to us, and you can still request a copy any time during the following six months for which you may be charged.

If you see the report within the 21 days, the doctor must obtain your consent before sending it to us. You can ask the doctor to amend any part of the report which is incorrect or misleading. You can attach a statement of your views on any part of the report where you and the doctor are not in agreement.

The doctor does not have to let you see any part of the report which could cause serious harm to your physical or mental health, or that of others, or would indicate the doctor's intentions towards you, or if information about you which has been supplied by another person, other than a health professional, would be revealed.

If the doctor withholds any part of the report from you, he must inform you of this fact. If it is the whole report which is affected, the doctor must not send it to us unless you consent to this.

If you do not wish to see the report, the doctor will send it to us immediately, but he must keep a record of the report for a period of six months, and you may apply to see a copy of the report during this time.
