

Thermal Transfer Ribbon  
**B110CZ**

Base film	
Base film	PET film
Base film thickness( $\mu\text{m}$ )	4.5 $\pm$ 0.5
Ribbon characteristics	
Ink color	Black
Printing characteristics	
Darkness	>1.55
Print quality	>ANSI-Grade B
Image durability	
Scratch resistance	>ANSI-Grade B
Heat-resistant friction	>ANSI-Grade B
Light resistance	>ANSI-Grade B
Water resistance	>ANSI-Grade B
Ethanol resistance	>ANSI-Grade B
Others	
Storage quality	No blocking after storage at 40°C for 72Hr

※Specifications based on Ricoh standard test method

◆As the print quality and image durability (scratch resistance, chemical resistance) might be insufficient depending on receiver and printer, the prior confirmation before using is recommended.

Storage conditions: Keep away from high temperature, high humidity and direct sunlight.  
Storage conditions : between 5 and 35° C/ Between 20% and 80% humidity  
Warranty period: 1 year
