SCANS QUICKLY AND EFFORTLESSLY THANKS TO ADVANCED TECHNOLOGY FROM DENSO.

It is no secret anymore that mobile data capture devices are a much faster option for processes like goods receipts or stock takings than the pen and paper method. The BHT-M60 accelerates those processes even more: thanks to a new decode engine combined with a high performance CPU, which leads to three times faster scannings than with conventional readers.

Superior reading speed.
Stress-less, continuous scanning.
