

# CRUISE™ 1 Industrial Smart Phone

## Light Weight , with High Speed , Ruggedness and Durability

As a data collection terminal which was developed to focus on field applications in different industries. The CRUISE 1 adopts 5.2 inch screen, no keyboard, portable and lightweight to carry, with powerful and stable performance, rugged and durable. CRUISE1 can help employees to begin their work fast and efficiently, and enterprises to improve economic performance.

### Lightweight with High Speed and High-efficiency

#### Top Configuration In The Field, Strong Capability Performance

- Android 5.1, Cortex-A53 eight-core, 2GB RAM+16GB ROM, operating comfortable and running smoothly
- Whole weight is less than 220g, light, thin and easy to carry
- 5.2" FHD 1080p FULL-VIEW screen without keyboard, fashionable and nice appearance, the image is clear and fine as well
- 13 megapixel rear camera, focusing time is less than 0.3 seconds, image collection is clear and fast

#### Fast Charging, Long Time Working

- Fast charging technology, 3 hours charging can ensure the high work load in whole day
- 4500mAh removable battery to ensure 12 hours using with full functions

#### Professional Design, Leading Functions

- International professional scan engine, more efficient on scanning
- The front NFC reading design, differs from the traditional working way which is back cover touching, the working efficiency is greatly enhanced
- Gps, beidou, glonass, 3-modeposition technology, accurate location, applied worldly

#### Fast Network Connection, Real-time Transmission

- 4G full network, faster speed, dual sim cards, free switching under strong or weak signals, great adaptability
- 5-mode dual-band WIFI with unique signal amplification technique, seamless switching between multiple APs, the performance is higher than similar products

## Durable And Rugged

**IP67,**  
Can assume 30minutes  
soaking in water

**1.5 Meters,**  
Dropping Test

Passed more than 60 testing, applied in various harsh environment, and our clients can use them for more than 5years without any worry.

  
Dust Environment  
(IP67)

  
North Regions Or  
Cold Chain Warehouse  
(-20°C)

  
High Temperature Outside  
(50 °C)

  
Port  
(Salt-spray)

  
Outdoor Raining  
(IP67)

  
Retail  
Oil Pollution Environment

  
Long-term Strong  
Ray Radiation

## Extreme Security, Advanced Data Protection Technology

Trust rom security zona, to provide users with a high security level storage of data

PSAM encryption, suit for the data transmission in financial industry

Built-in international first-line SOTI remote administration software, to know the state of the devices at any time

Fingerprint verification, authentication can be used for operating-system login

Secure desktop with independent intellectual property right, ensure the security of application permissions

Installation permission settings, avoid unauthorized software installation

## Application Field

Logistic/express Service:  
Pick-up And Delivery

Retail Industry:  
Sales Management

Medical Industry:  
Mobile Nursing

Public Utilities:  
Mobile Law-enforcing
