Smart Lectern

Define Your Stage

Smart System Embedded Electrically Height Adjustable Wired & Wireless Screen-sharing¹ **Onstage Annotation**

Singular. Exemplary. Enthralling

Integrates PC, microphone, touch screen into a singular device. Stable and durable, enhances corporate image.

Screen-sharing Re-invented

Connects with mobile devices, laptops, and synchronises the screens with onstage display³; You can easily switch between devices.⁴

Multiple Choices for Connection⁵ Up to 8 devices for instant switch⁷ | Wireless Screen-sharing⁶

Annotation at Will

Annotate on the smart lectern while facing to the audience to improve engagement.

21.5 Inches | Capacitive + EMR Display Touch technology

| Smart Annotation

Electrically Adjustable Height that Fits Your Stage

Making you comfortable on stage, both for making hand gestures and annotating or touching on the smart lectern on MAXHUB Smart Lectern.

Wireless Deployment Helps Adapt to Different Settings

Mobile on wheels. Wait not, to take your speech to a wider audience.

Supports Windows 7 and above, macOS 10.10 and above, IOS 9.0 and above, Android 5.0 and above.The"MAXHUB Share" app needs to be downloaded, installed prop Dnstage display includes: MAXHUB Integrated LED Walls, MAXHUB Interactive Flat Panels, and display systems that work with a MAXHUB Wireless Box or support H Jupports Windows 7 and above, macOS 10.10 and above, IGN 9.0 and above, Android 5.0 and above.The"MAXHUB Share" app needs to be downloaded installed prop Supports Windows 7 and above, macOS 10.10 and above, IGN 9.0 and above, Android 5.0 and above.The"MAXHUB Share" Supports Sindows 7 and above, macOS 10.10 and above, IGN 9.0 and above, Android 5.0 and above.The"MAXHUB Share" be downloaded, installed properly ar JB Wireless Box or support HDMI inc and granted necessary network access l properly and granted necessary network access. on, and relay the screen-share from personal devices to the external display with on-screen anno

Teatures. 5 When connected in the same WLAN with a MAXHUB Integrated LED Wall, MAXHUB Smart Lectern does not need any additional apps to achieve wireless screen-sharing. However, when connected to other display systems, additional apps may be required to install on the smart lectern to do so or through a MAXHUB Wireless Box. 6.4 MAXHUB Smart Lectern supports simultaneous connection with up to 8 devices and instant switch amongst them.

| | Product Specification |
|------------------------------|--|
| | |
| | Display |
| Size | 21.5 Inches |
| Screen Type | IPS |
| Resolution | 1920×1080 |
| Refresh Rate | 60Hz |
| Color Depth | 8 bits (16.7M) |
| Touch System | |
| Touch Technology | P-Cap + EMR |
| Capacitive Touch Points | 10 Points |
| EMR Touch Points | 1 Point |
| Touch with | Stylus or Finger |
| Touch Accuracy for Stylus | ±0.5 mm |
| Types of EMR Styli supported | SP08 Electro-magnetic Stylus/1024 Pressure Sensitivity |
| Operating System | |
| Version | Windows 10 |
| CPU | Intel 8th i5 8250U |
| RAM | 8GB |
| ROM | SSD 128GB |
| | Display Connectors |
| UDMI Out | |
| HDMI Out | 1 |
| Audio Out | 1 2 |
| USB 2.0 | |
| AC In | 1 |
| DC In Buttons | |
| Buttons | 4 (Power, Go Up, Go Down, Microphones Switch) |
| | Wireless Screen-sharing |
| Transmission Delay | <133ms |
| Operating Distance | 12m |
| Operating Frequency | 2.4GHz/5GHz |
| WiFi | |
| Operating Frequency | 2.4GHz/5GHz |
| | Audio & Video |
| Power of Speakers | 2×3W |
| Gooseneck Microphones | 2 |
| Microphone Pickup Distance | ≤20cm |
| Sensitivity of Microphones | -40dB±2dB |
| Microphones Input Frequency | 40Hz~16kHz |
| Microphones Sample Rates | 30kHz |
| Structure | |
| Dimensions | 739mm×400mm×(1000~1200)mm |
| Net Weight | 27kg |
| Environment | |
| Working Environment | 0°℃~40°℃ |
| Working Humidity | 10%~90% |
| Storage Temperature | -20°C~60°C |
| Storage Humidity | 10%~90% |
| Working Altitude | <5000m above sea level |
| WOLKING AILILUUE | |
