BAR CODE LABEL PRINTING
SOFTWARE FOR THE POCKET PC

Pocket LABELVIEW™

Bar Code Label Printing Software for the Pocket PC.

Looking for a Pocket PC-based label printing solution that offers advanced features like full WiFi compatibility, database support, and serialization capabilities, while still being easy to use? Then **Pocket LABELVIEW** is the software solution for you.

Pocket LABELVIEW is a powerful, flexible, and easy-to-use Pocket PC-based solution for printing bar code labels. It allows you to take labels created in **LABELVIEW** label design and printing software, download them to your Pocket PC, and print them using a direct or wireless connection.

Pocket LABELVIEW Main Menu

VARIABLE DATA FEATURE	DESCRIPTION
"When Printed" Fields	Prompt the user for the field value at print time.
Date and Time Stamps	At print time, the date/time is taken from the Pocket PC's operating system.
Formulas	Configure formulas like expiration dates and box count fields (Box 1 of 10, Box 2 of 10, etc.) to meet the needs of any application.
Database Support (dBase format)	Offers greater level of data accuracy. Local storage of database files for mobile convenience.
Serialization	Print sequential numbers such as serial numbers, shelf numbers, coupon/ticket numbers, etc.
Log variable data to a log file at print time	Log user input data, database field data, serial file data and calculated data from linked expressions.

Powerful

Includes advanced printing features for variable data like database fields, serialization, formulas and more.

Flexible

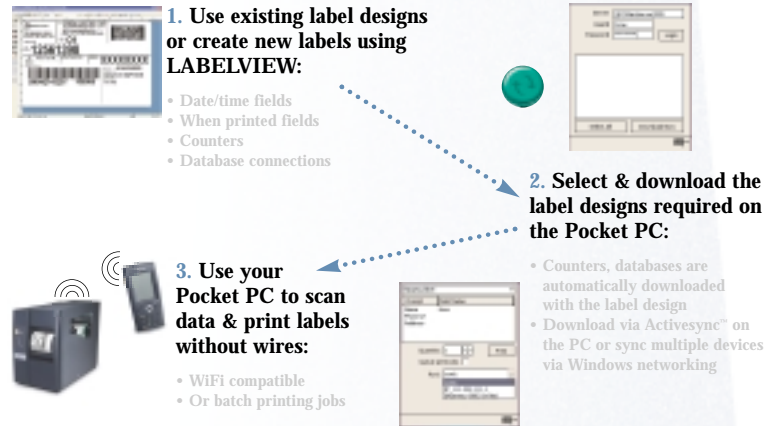

Choose from a variety of printing options (Wired, WiFi, and Batch printing), and print to any of over 1000 supported thermal and thermal transfer printers.

Easy to Use

Fully integrated with LABELVIEW label design software—design once for either platform. Pocket LABELVIEW's Graphical User Interface offers intuitive navigation.

How it Works:

- 1. Design Your Label in LABELVIEW.** Just select a printer and design your label using text, bar codes, graphics and more.
- 2. Select and Download Your Label.** Download process is quick and easy, with counters and databases automatically downloaded along with the label design.
- 3. Print Your Labels Using a Direct or Network/Wireless Connection.** Just select the label to print, enter any required variable information, and print wirelessly or to a wired connection.
