

SYSTEM 2™ CARTRIDGE FILTERS

GREATER DIRT-LOADING CAPACITY REDUCES MAINTENANCE

The **System 2™** is ideal for small in ground and aboveground pools. It handles dirt loads up to 15 times greater than sand filters of equivalent size. The result: you capture more dirt between cleanings and minimize time on maintenance.

- Balanced-flow tank design works in unison with the high capacity filter module to collect dirt over its entire surface—holds more dirt so you clean less often.
- Less frequent cleaning also increases filter module service life and lowers lifetime costs.
- Rugged composite construction resists corrosion and weathering.
- Compact design fits easily in tight installations and can be easily shielded from view.

SYSTEM 2™ CARTRIDGE FILTERS

EASY TO CLEAN - JUST SPRAY AND GO

- Easy to clean: remove the lid and spray-rinse the module while it is still in place. It only takes minutes to thoroughly clean the filter and get it back into service.
- Easy to install or replace media: a one-piece module that simply drops into an easily accessible tank
- Thermoplastic tank and ring to withstand UV, heat and cold – corrosion resistant
- Posi-Ring™ closure for easy and safe access tot the tank
- 2-year limited warranty

Sta-Rite™ innovation takes sand filtration technology to the next level by delivering superior quality, performance and value at an affordable price.

MODEL	Filter Diameter (mm)	Flow Rate (m³/h)	Filter Area (m²)
PLM100	381	11.4	9.3
PLM150	381	17.0	14.0
PLM175	381	19.9	16.3
PLM200	381	22.7	18.6
