

SUPERFLO® SWIMMING POOL PUMPS

EFFICIENT AND VERSATILE...

The **SuperFlo®** pump is a product of more than 40 years of innovative hydraulic engineering. The result is an ability to move more water more efficiently for lower operating cost and super-quiet operation. Plus, by performing with less effort, there's simply less wear and tear-and that means longer life for a higher return on your pump investment.

- Quiet operation due to superior internal flow design that reduces hydraulic noise.
- See-through, Cam and Ramp™ lid permits easy inspection of strainer basket and locks in place with a quarter-turn.
- Heavy-duty TEFC (Totally enclosed fan cooled) motor for long life.
- Self-priming for quick, easy start-up.

SUPERFLO® SWIMMING POOL PUMPS

THE STRONG, SILENT TYPE

The **SuperFlo®** pump meets all the criteria for a superior pool, spa or water feature pump. It's super energy-efficient, super quiet and super easy to maintain. Plus, it is designed with innovative materials that will stand up to the most demanding installations and conditions. Whether you're choosing your first pump or replacing older technology, **SuperFlo®** is definitely a super choice.
