

POOL CHEMICALS

because we sincerely believe that *ONLY THE BEST IS GOOD ENOUGH FOR YOUR POOL* we have pledged to offer you *ONLY THE BEST POOL CARE PRODUCTS*

SWIMTRINE +Plus

Effectively and economically kills algae and prevents regrowth without requiring pool closure

- Fast acting, eliminates algae within hours
- Especially effective on mustard and green algae
- Compatible with all other pool chemicals
- No waiting period – swim immediately
- Easy to apply
- Does not cloud water

For Visible Algae Growth : Apply 60 cc OF SWIMTRINE per 19 cu.m of pool water every 7 days.

Prevention of Algae : Apply 30 cc of SWIMTRINE per 19 cu.m of pool water every 10–14 days.

POOLTRINE

An algaecide water clarifier suitable for Diatomaceous Earth filters (D.E. Filter)

- Eliminates green algae as it increases water clarity
- Two jobs done at the same time
- No waiting period – swim immediately
- Long lasting action
- Non – metallic, will not clog filters
- Non – foaming, will not cloud water

For Heavy Algae Growth : Apply 300 cc Of POOLTRINE per 19 cu.m of pool water every 5 days.

For Treatment of a Freshly Clean and Filled Pool : Apply 150 cc of POOLTRINE per 19 cu.m of pool water every 7 days.

CLEARTRINE

An algaecide water clarifier suitable for Sand Filters.

- Highly concentrated polymer treats up to 160,000 gallons of water
- Coagulates dirt, oil and other organic causes of cloudiness
- Improve filter efficiency
- Fast – acting
- Biodegradable – easy and safe to use
- No waiting period – swim immediately

For Very Cloudy Water : Apply 60 cc Of CLEARTRINE per 19 cu.m of pool water every 24 hours until clear.

For Maintenance : Apply 30 cc Of CLEARTRINE per 19 cu.m of pool water every 2 weeks.

(A Mixture of 1:9 with water can be applied directly into swimming pool while running the filtration system)

The products featured in the brochure are internationally recognised as the best. You can be assured they will help you achieve and maintain the best swimming waters.

SANITRINE

Acts as Cleaner, Disinfectant, Deodorant and Fungicide

- Removes dirt, grime, grease and oils, as it prevents odour and kills germs.
- Ideal for use on pool walls and decks
- Effective against the pathogenic fungus

Simply mix 60 cc Of SANITRINE per 1 litre of water and wipe or scrub surface with damp cloth or mop.

STAINTRINE

Stain & scale preventer and remover

- Prevents staining and scaling of pool surfaces and components by chelating minerals such as iron, calcium and manganese.
- Cost – effective & easy removal of fresh stains.
- Protects pumps filters and pool heater exchange elements.

New Pool Filling : Apply 225 cc Of STAINTRINE per 19 cu.m of pool water. Adjust free chlorine to 1.5 ppm and pH 7.2-7.6

For Maintenance : Apply 45-75 cc Of STAINTRINE per 19 cu.m of pool water.

BLACK ALGAETRINE

The best available product for controlling black algae's innate resistance to chemicals.

- Insures total killing action quickly
- No waiting period for pool's use
- Excellent for cleaning algae off pool sides
- No clouding and easy to apply

Once black algae is controlled, regrowth can be effectively prevented with regular use of SWIMTRINE

With Visible Algae Growth : Apply 180 cc Of BLACK ALGAETRINE per 19 cu.m of pool water every 5 days. Settled algae debris may be removed by vacuuming.
