

# Timer Switch

## Product Feature

The products according to the time set by the user, automatically turn on and turn off the variety of electrical equipment. Control object can lights, light boxes, neon signs, production equipment, agriculture, aquaculture, warehouse exhaust dehumidifier automatically preheat optional control products, such as radio and television equipment.

## Technical Data

Item	Parameter
Model	TB118
Operating Voltage	220V-240VAC
Supply Frequency	50/60HZ
Power Consumption	2 W
Contact Capacity	AC 220V 16A
Insulation Resistance	21000
Operating Temperature	-40C-+55C
Accuracy	s2s/day25°C
Working Reserve Time	24Hours Charged Can Last 150Hours
Full Timing Range	24h
Storage Battery	150h
Minimum Setting Unit	30 Minuters
Number of Operations	6 for Standard, Max.48
Ambient Operating Temperature	-10C-500
Ambient Operating Humnidity	85 %RH, or Less (No Condensing)
Pollution Degree	2
Overvoltage Category	III
Classification	1BSTU

## Dimensions
