

Light Control Box

WEATHERPROOF FOR OUTDOOR INSTALLATION

Remote control for RGB lights. Electrical overload and leakage protection

Remote Control

10 effects are all sequentially numbered

SIMPLE AND EASY OPERATION!

The AC power of 600W at maximum feed into the control box is divided into 2 circuits which can each support a load up to 300W. The control for lights on the same line is by nature synchronized and synchronization of control over both lines (all lights) is also possible.

Product Features

1. IP44 rating, suitable for outdoor use
2. Maximum load of 600W with power indicator
3. Made from fire-proof ABS material
4. Two control modes-manual mode and timer mode in which the ON/OFF time of load can be set
5. The hand-held remote control interacts with the control box from a distance
6. Simple and easy operation with 4 keys
7. 10 effects are all sequentially numbered. The "RESET" key set all lights to the first effect
8. "POOL" and "SPA" keys are used to change the lighting effects connected to the pool circuit and the spa circuit respectively

IP44 CE RoHS COMPLIANT 2011/65/EU SAA

Code	Model	Description
08040009	N/A	With Remote Controller (2*300W/220-240V/50/60Hz)
08040020	N/A	With Remote Controller (2*300W/110V/ 50/60Hz)
