

COMPANY PROFILE

Integrated Tapioca Starch
Manufacturer

CK GROUP

HISTORY

CK Group was founded by Mr. Mingquan Huang and subsequently expanded under the leadership of Mr. Chumpol Kajohnchalearmsak to specialize in the processing of fresh cassava roots and the manufacturing of tapioca starch for both domestic distribution and international export. With over 75 years of industry experience, CK Group has continually enhanced its production processes and product quality, ensuring excellence at every stage from the meticulous selection of raw materials to the integration of advanced technology in manufacturing and quality control. Committed to delivering superior products and services, the company is recognized as a pioneer and leader in Thailand's tapioca starch industry and a key producer in the global market.

CK Group specializes in the processing of super high-grade tapioca and operates with a total registered capital of 1,320 million Baht, fully paid-up, across its affiliated companies. The company manages three tapioca starch production facilities with a combined production capacity of 1,650 tons per day, exceeding 480,000 tons annually.
