

# UNDERWATER LIGHTS

## WL-MAG/WL-MBG

LASWIM's WL-MAG, WL-MB series of mixed-type (wall-mounted/embedded) underwater lights prioritize engineering convenience, product safety, and reliability. This underwater light demonstrates excellent engineering adaptability, allowing wall-mounted, embedded, or assembled installation through the conversion of the base.

This greatly enhances the universality of underwater light installation, reducing the difficulty for owners to choose. Simultaneously, this underwater light employs a fully sealed process and integrated structural design, isolating electrical components from water and the light body. This significantly improves the waterproof, heat dissipation, and insulation performance of the underwater light, resulting in better safety and a longer lifespan.

Colour Change

### FEATURE

- Fully resin enclosing the light cable connection, to achieve complete waterproof and moisture proof.
- High efficient, supper bright, big lumen
- Waterproof standard: IP68
- Color: cool white, warm white, RGB and single color
- RGB mode features 19 pre-programmed patterns
- Installation mode: compatible to housing type with niche and wall-mounted with bracket plate
- Color temperature: cool white 6000K, warm white: 3000K

## This Series Lights Are Available To Choose Different Surface Plates

MAG led light

MBG led light

### Recessed light with niche

### Wall mounted light with bracket plate

## WL-MAG

Model	Power (W)	Voltage (V)	LED QTY	Light source	Color	Lumination (lux)	Installation type
WL-MAG-LED072TB	6W	12V	72	Resin filled	cool/warm white	255	Housing type & wall-mounted type
WL-MAG-LED072TC	6W	12V	72	Resin filled	RGB color	90	Housing type & wall-mounted type
WL-MAG-LED144TB	12W	12V	144	Resin filled	cool/warm white	455	Housing type & wall-mounted type
WL-MAG-LED144TC	12W	12V	144	Resin filled	RGB color	110	Housing type & wall-mounted type
WL-MAG-LED252TB	18W	12V	252	Resin filled	cool/warm white	731	Housing type & wall-mounted type
WL-MAG-LED252TC	18W	12V	252	Resin filled	RGB color	255	Housing type & wall-mounted type
WL-MAG-LED324TB	24W	12V	324	Resin filled	cool/warm white	1075	Housing type & wall-mounted type
WL-MAG-LED324TC	24W	12V	324	Resin filled	RGB color	355	Housing type & wall-mounted type
