

06.Auditor/Lead Auditor Course on ISO 14001:2015 Environmental Management Systems

Course Overview

COURSE DURATION: 40 hours

DELIVERY METHODOLOGY: Online/Offline/Blended

ACCREDITATION: Exemplar Global

This course is certificated by the Exemplar Global.

This an online awareness course which is for every professional, environmentalist, business and engineering students; who are looking to learn the basics of ISO 14001:2015 Environmental Management System (EMS)

This course is a short version of premium course "**ISO 14001:2015 - Environmental Management Systems (EMS)**". If you have already purchased the premium course, no need to take this course.

Environment Management System in a business is the most challenging part in today's world. Similarly it is important to know basics about the standard on ISO 14001, and the dynamics within that. Hence this course is engineered to make the process of understanding Environmental Management System easier for professionals.

On completion of this training, you will be able to:

Apprehend the purpose and standards of the environmental management system. Learn to think like an EMS auditor and offer expert advice.

- Comprehend the roles and responsibilities of an auditor: Plan, Conduct, reporting and follow up.
- Understand and implement improved environmental management system practices to benefit your business.
