

Cyclieco is a Thailand-based electric bicycle manufacturer specializing in export-ready mobility solutions for global markets. As a subsidiary of an established manufacturing group with over 30 years of experience in Thailand, Cyclieco is built on a strong foundation of production expertise, quality control, and operational reliability.

Our core strength lies in delivering high-quality e-bikes that are fully compliant with international standards and proudly backed by Made in Thailand certification.

Cyclieco combines reliable local manufacturing with strict quality control and cost-efficient production. Every model is developed with export compliance in mind, meeting key regulatory requirements across Europe and other major markets—ensuring our partners can confidently bring products to market without delays or complications.

- Max Speed: 25km/hr
- Range: 50-80km
- Derailleur: 6-speed Shimano
- Brakes: Front and Rear Mechanical Disc Brake

- Display: LCD
- Battery: 36V / 7.8Ah Lithium-ion
- Gross Weight: 21.8kg

Packing Information:

- 256 units/40HQ
- 225 units/40GP

C1

Key Specifications:

- Aluminium alloy frame
- 20 x 2.125" tires with AL alloy wheels
- Motor: 250W Rear Hub
- Max Speed: 25km/hr
- Range: 40-50km
- Derailleur: 6-speed Shimano
- Brakes: Front and Rear Mechanical Disc Brake

- Display: LCD
- Battery: 36V / 10.4Ah Lithium-ion
- Gross Weight: 30kg

Packing Information:

- 200 units/40HQ
- 180 units/40GP

S9

Key Specifications:

- Magnesium alloy diecasted frame
- 20 x 2.125" tires with AL alloy wheels
- Motor: 250W Rear Hub
- Max Speed: 25km/hr
- Range: 50-80km
- Derailleur: 6-speed Shimano
- Brakes: Front and Rear Mechanical Disc Brake

- Display: LCD
- Battery: 36V / 7.8Ah Lithium-ion
- Gross Weight: 20.5kg

Packing Information:

- 279 units/40HQ
- 210 units/40GP

T1

Key Specifications:

- Aluminium alloy frame
- 20 x 2.125" tires with AL alloy wheels
- Motor: 250W Front Hub Motor
- Max Speed: 25km/hr
- Range: 40-50km
- Derailleur: 7-speed Shimano
- Brakes: Front and Rear Mechanical Disc Brake

- Display: LCD
- Battery: 48V / 15.6Ah Lithium-ion
- Gross Weight: 34.45kg

Packing Information:

- 85 units/40HQ

XPLORER

Key Specifications:

- Aluminium alloy frame
- 20 x 3" tires with AL alloy wheels
- Motor: 250W Rear Hub Motor
- Max Speed: 25km/hr
- Range: 40-50km
- Derailleur: 6-speed Shimano
- Brakes: Front and Rear Mechanical Disc Brake

- Display: LCD
- Battery: 48V / 15Ah Lithium-ion
- Gross Weight: 39.2kg

Packing Information:

- 168 units/40HQ
