ABOUT US

Company History

S.P.M. Intercool Co., Ltd., established in 2004, is a leading specialist in cold storage and industrial refrigeration systems.

With over 30 years of industry experience, we provide a comprehensive range of services including:

- **Design, construction, and installation of cold rooms**
- **Maintenance and servicing of all types of refrigeration systems**
- **Chilled water systems (Chillers) and cooling tower installations**
- **Refrigeration systems for container applications**
- **Cold storage wall panel systems and processing line enclosures**

Our services are available nationwide—covering Bangkok, metropolitan areas, and all provinces in Thailand—delivered by expert technicians with a commitment to quality and safety.

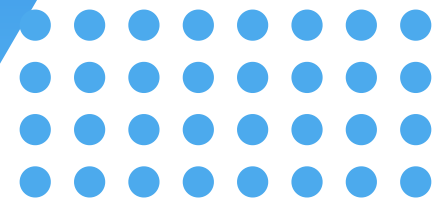

Highlight

- ✓ Nationwide Service Coverage
- ✓ Cold Room Design and Installation Services
- ✓ Maintenance Services for **All Types** of Cold Rooms and Refrigeration System

BUSINESS MISSION

We are a **one-stop service provider for cold storage and refrigeration systems**, offering sales, design, installation, and maintenance for cold rooms, refrigeration units, and chilled water systems. Our experienced team provides end-to-end support to ensure high-quality service and efficient, reliable systems tailored to each client's needs. We also uphold strict installation standards for cold room paneling and production lines to serve a wide range of industries.

BUSINESS SERVICE

Design, construction, and installation of cold storage rooms
including the supply of prefabricated insulated panels

**Sales, installation, and maintenance
of all types of refrigeration systems and rack systems**

Cooling tower systems, piping works, and maintenance services
Comprehensive chilled water system solutions (Chillers)

Custom stainless steel fabrication
including stainless shelving for dairy plants, ice cream factories,
and ice plants

Sales and supply of spare parts and accessories
for cold rooms, refrigeration systems, and chilled water systems

Preventive and corrective maintenance services
for cold rooms, refrigeration systems, and chilled water systems

PRODUCT

SANDWICH PANEL

S.P.M. Intercool Co., Ltd. is a trusted supplier of high-quality prefabricated insulated panels, manufactured through internationally certified processes with strict quality control at every stage—from design and testing to production—ensuring strength, durability, and optimal performance. Our panels are made from galvanized steel structures (Clean Color Bond Finished), rust-resistant and coated with silicone-modified polyester paint for superior scratch and corrosion resistance. The insulation core is bonded using polyurethane adhesive at optimal temperatures, delivering long-lasting structural integrity.

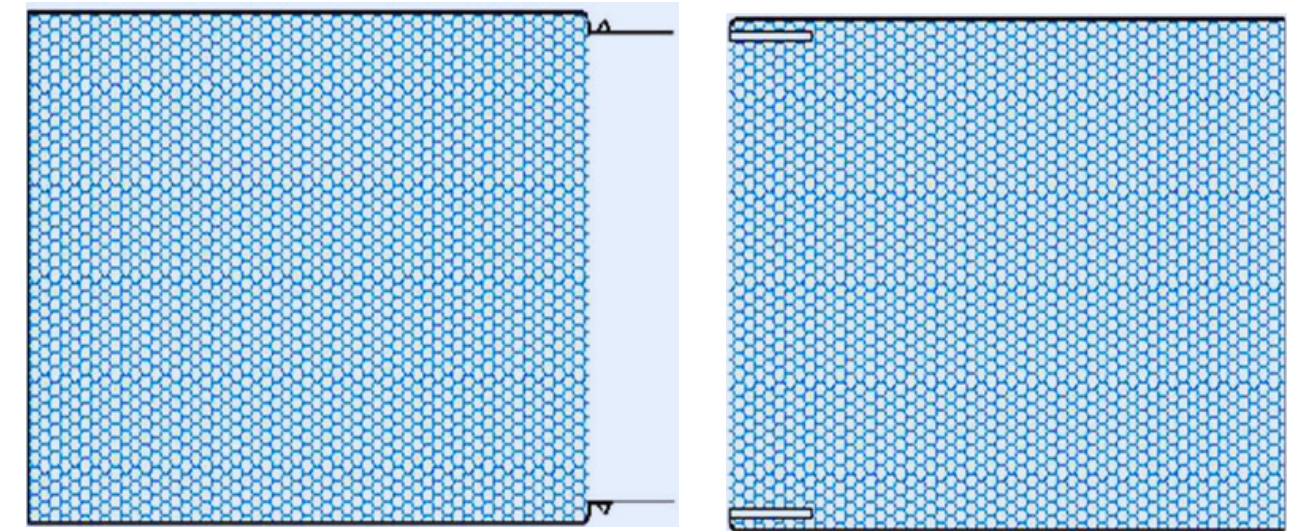

We also offer advanced **CRP Antibacterial coated steel panels, featuring Microban antimicrobial technology and USDA-certified food-grade surface** coating from the U.S., making them ideal for cold storage and food processing environments.

In alignment with our commitment to sustainability, we use **CFC-free foam insulation**, which is environmentally friendly and ozone-safe, supporting global environmental protection efforts.

PRODUCT SANDWICH PANEL

Panel Locking Mechanism

All panels utilize a cam-lock joint system with interlocking steel edges and internal locking hooks spaced every 20 cm along the length, ensuring an airtight, secure fit.

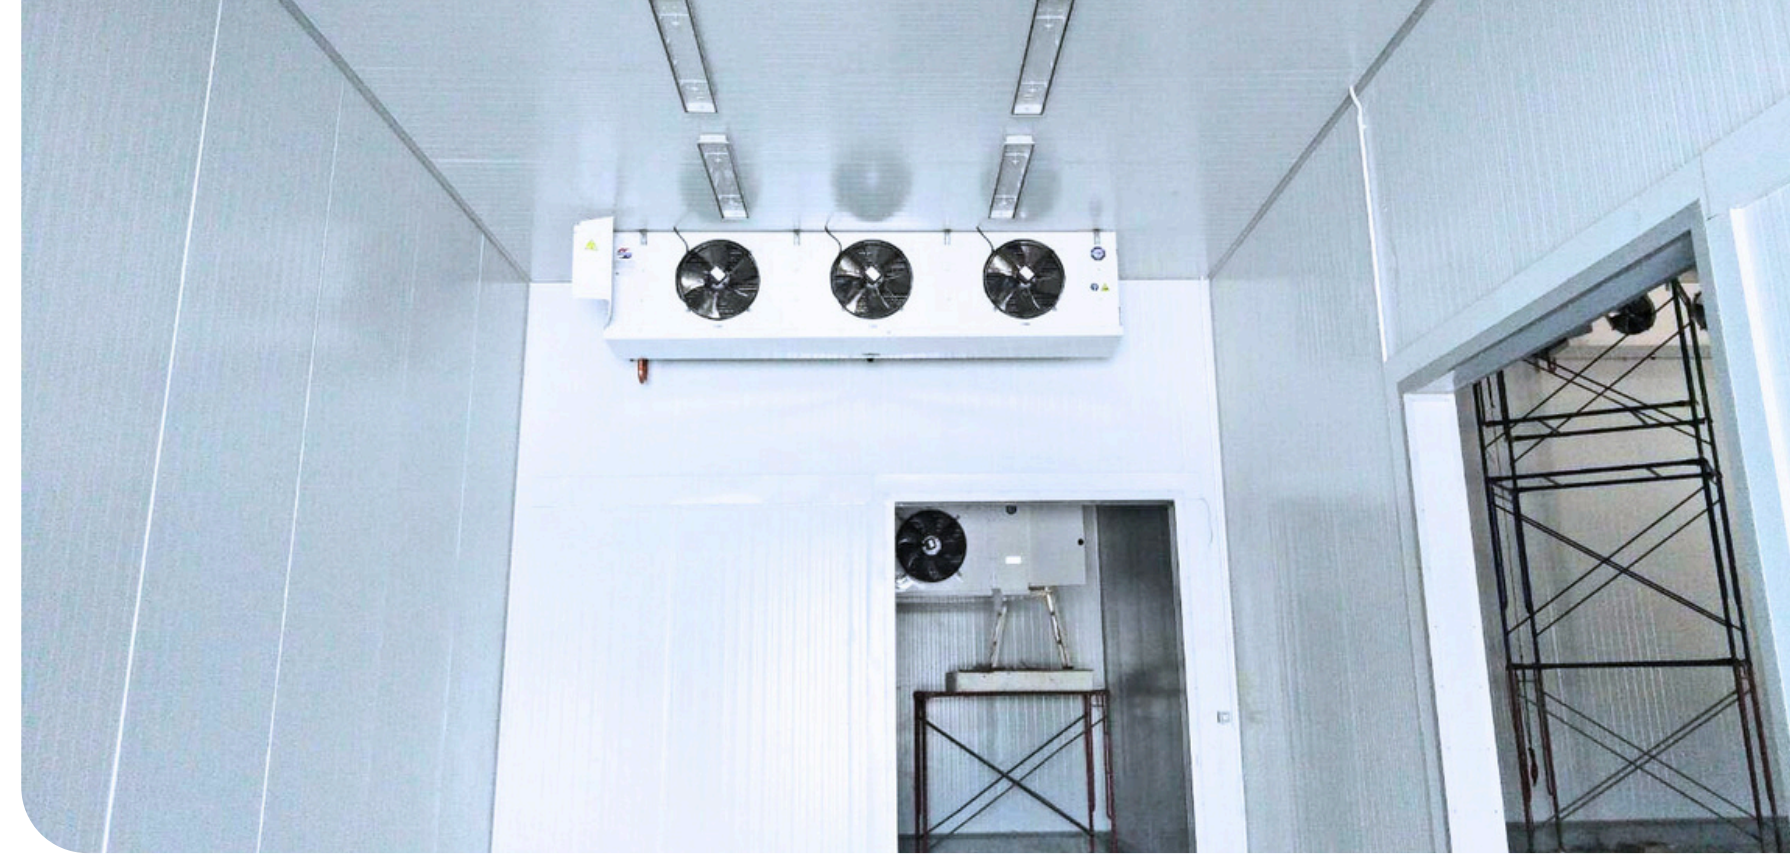

PRODUCT COLD ROOM

S.P.M. Intercool Co., Ltd.

We specialize in the design and installation of prefabricated cold rooms, led by industry experts with **over 30 years of specialized experience**.

All designs are based on precise engineering calculations and international standards to ensure optimal performance.

We provide customized cold rooms in all sizes and specifications, tailored to meet each client's needs across various business sectors.

Types of Rooms We Build

Food processing rooms and industrial component manufacturing areas

Anti-rooms / staging zones for goods handling

Cold rooms and freezer rooms

Blast freezer rooms for rapid deep freezing

Temperature and humidity-controlled rooms

Drying rooms and cleanrooms

Testing rooms and control rooms

Animal housing facilities

Dairies

...and many more, custom-built to meet each client's specific requirements.

REFRIGERATION UNIT

เครื่องทำความเย็น

We specialize in the supply and installation of high-performance industrial refrigeration systems from globally recognized brands.

All equipment is carefully selected and imported from Europe and North America, including Italy, Denmark, France, and the United States.

Our core offerings include:

- Compressors
- Evaporator coils
- Chilled water systems (Chillers)

All products are internationally certified, ensuring high performance, long lifespan, energy efficiency, and cost-effectiveness—backed by professional installation by experienced technicians.

OUR PRODUCTS

OUR OTHER PRODUCTS

WE SUPPLY OVER 100 SPECIALIZED ACCESSORIES AND COMPONENTS FOR COLD STORAGE AND REFRIGERATION SYSTEMS, INCLUDING:

PVC STRIP CURTAINS
AVAILABLE IN CLEAR, LOW-TEMPERATURE
GRADE, AND INSECT-REPELLENT TYPES

ALUMINUM EXTRUSIONS

CEILING SUSPENSION SYSTEMS

PRESSURE RELIEF VALVES

**ANTI-FUNGAL
SILICONE SEALANT**

COLD ROOM DOORS
EQUIPPED WITH SAFETY RELEASE
MECHANISMS AND THERMAL INSULATION

**COLD ROOM LED LIGHT
FIXTURES**

**AND MANY MORE INDUSTRIAL-
GRADE COMPONENTS**

Our Team

At every stage of installation, we pay meticulous attention to detail—**not just because we build cold rooms, but because we build trust for every business that relies on us.**

Our technicians are professionally trained and field-experienced, equipped with industry-standard tools and follow rigorous quality control protocols.

Every square inch is carefully inspected to ensure precision workmanship, clean finishes, and optimal system performance from day one.

BUILD WITH US NO REGRETS, JUST RESULT

We prioritize customer service above all else .

Our support team is available 24/7 to assist via chat ✓

Over 30 years of industry experience ✓

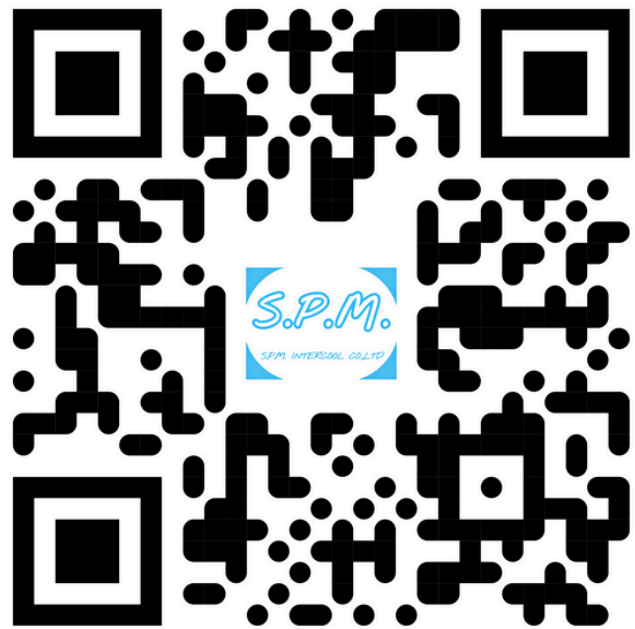

We offer free consultation from experienced engineers and cold storage specialists ✓

Precision in cold room design and installation ✓

In the event of any issue, our professional technicians and dedicated service team are always ready to respond promptly ✓
