CAUSTIC SODA FLAKES

Properties : White flake, strong alkali with intense corrodibility to human skin, textile fabrics and paper. Absorbing carbon dioxide from air, it produces sodium carbonate. of intensive hygroscopic property, solid sodium hydroxide must be stored in a moisture-proof and air-isolated place.

Application: Mainly used for artificial fiber, textile, dyestuff, chemicals for petrochemical, organic synthesis, pharmacy, chemical fertilizer, paper making, plastic and water treatment.

Packing: 25kg PP woven bag

Alias: Sodium Hydroxide

Formula : NaOH

Standard: GB 209-2006

Items	Specification	
	99%	
NaOH %	≥	99.0
Na ₂ CO ₃ %	≤	0.7
NaCl %	≤	0.1
Fe ₂ O ₃ %	≤	0.008
