

SPECIAL PROMOTION

Purchase the device with
**1-year of free
AIRTIME**, starting from just
19,500 THB.

(THIS PROMOTION IS VALID UNTIL OCTOBER 31, 2025.)

The device is properly imported and the service, authorized by the NBTC, is operated by Thaicom, a Thai satellite expert, via LEO satellite network.

SMARTONE SOLAR

This is a satellite-based asset tracking solution that lets you connect anywhere in the world. It allows you to check data in real-time and review past information.

Easy to install and doesn't require complex wiring or an external antenna.

Solar-powered with a lifespan of over 10 years and is durable in all conditions.

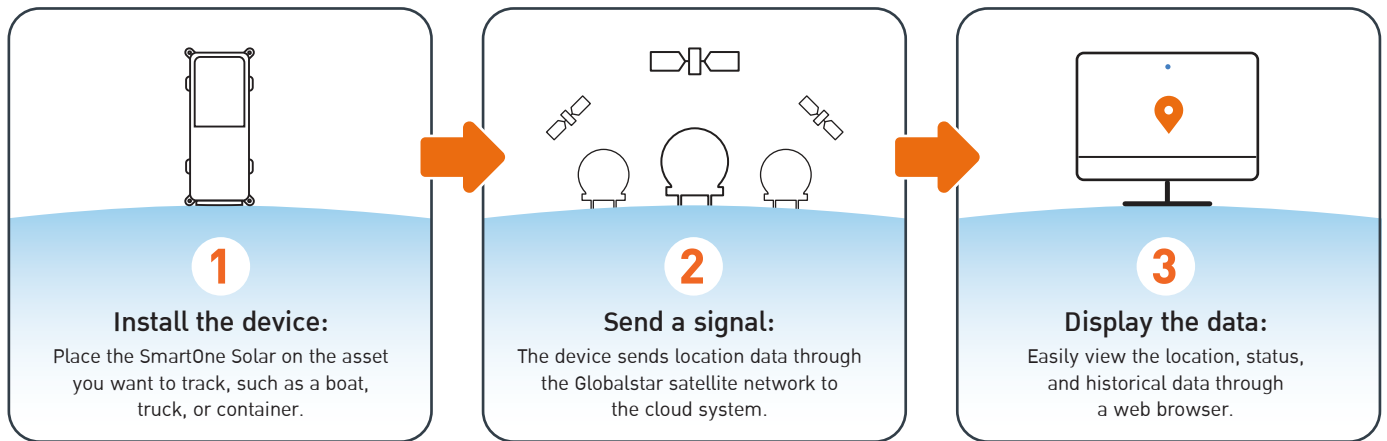

Compliant with IP68/69K, Mil-STD-810G, and ATEX/IECEX standards, making it safe for use in areas with a risk of explosion.

99% global coverage for tracking from anywhere in the world, using the Globalstar LEO satellite network.

HOW IT WORKS (3 SIMPLE STEPS)

Benefits

- The battery, charged by solar power, can be used for more than 10 years and can also receive power from an external source.
- Reports the location of assets worldwide with accuracy, increasing safety and efficiency for your business.
- Easy to install; no need for external wiring or antennas.
- Requires no maintenance.
- Supports various types of reporting, including:
 - GPS location reports in 4 modes.
 - Geofencing with custom settings.
 - Location reports for both moving and stationary assets.
 - Alerts for when the device is moved or stolen.
 - Receiving and sending data from external sensors up to 54 bytes.
 - Indicates speed and heading while in operation.

Transportation:

Tracking and monitoring high-value assets or vehicles.

Construction:

Checking the coordinates of high-value equipment and assets.

Maritime:

Tracking high-value assets like ships, oil rigs, and containers at ports and offshore.

Oil and Gas:

Tracking high-value assets or vessels for field surveys and drilling.

Insurance:

Tracking high-value mobile assets such as cargo trains, ships, and goods.

Agriculture:

Used for analysis to increase productivity and to send data from sensors in remote areas.

The normal price for the device plus activation (without Airtime) is **19,500 THB**.

SPECIAL PROMOTION

Promotion	Detail	Price	Saving
Pro 1	Device + Activation + Airtime (100 messages/month for 12 months). Normal price: 27,300 THB	19,500 THB	7,800 THB
