Toshiba utilities in this regard. We focus on the development of color fluorescent to expand happiness, under light more than ever.

Light & Color

Red : is a warm and positive color associated with our most physical needs. Red light is widely used to decorate any celebration.

Deep Red : is more sophisticated and serious and less energetic than red. It indicates controlled power and is often favored by the wealthy.

Blue : is the color of trust and peace. It can suggest loyalty and integrity as well as conservatism and frugidity.

Yellow : is the color of the mind and the intellect. It is optimistic and cheerful. However it can also suggest impatience, criticism and cowardice.

Green : It is the color of natural, makes you open and free. While green light is well shining through the water. It is widely used in the shallow squid fishing.

Deep Yellow : is the color of the loner with an intense curiosity and interest in investigating the finer details of its interests.
