

LED A Bulb series

Wide range of brightness and its reasonable price make Toshiba LED A series become the most wanted LED bulb. They have been developed over the time, generation to generation. This veritable all-rounder is flexible, wider color range coverage, long-lasting and robust : the perfect solution for your general lighting applications.

We also expand new models to accommodate the demand of more brightness over 1,521lm with our new Toshiba LED A60 bulb. The more brightness is more saving than ever.

PRODUCT FEATURES

- ➔

Up to 87 % energy saving*
- ➔

15 times longer life*
- ➔

Instant 100% light on,no warm-up time
- ➔

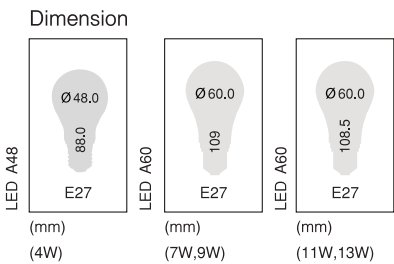

Environmentally friendly (Mercury-free and low UV)
- ➔

Made with quality material, quickest cooled
- ➔

Wider color range with Toshiba special Cool White (4000K)
- ➔

Indoor use only

* Comparing to incandescent lamp.
